In May 2020 ENOC and UNICEF conducted a short **online survey** on Ombudspersons and Commissioners for Children's responses to the new challenges generated by the COVID-19 pandemic. Twenty three ENOC members responded to the survey: Armenia, Basque Country/Spain, Bulgaria,

Catalonia/Spain, Croatia, Cyprus, Denmark, Estonia, Finland, France, Hungary, Jersey, Luxembourg, Malta, Moldova, Montenegro, Northern Ireland/UK, Republika Srpska/ Bosnia & Herzegovina, Scotland/UK, Serbia, Slovakia, Slovenia and Wales.

Following up on the survey, nearly 60 representatives of Ombudspersons for Children's offices and UNICEF participated in an **online session on June 2nd 2020**, to discuss the impact of COVID-19 on their work and on children's rights in their respective countries, and share innovative practices. The main issues raised in the survey and during the joint online session are summarised in the **Synthesis Report « Ombudspersons and Commissioners for Children's Challenges and Responses to COVID-19 »** available on the [ENOC website](#).

A dedicated page on COVID-19 and children's rights has also been created on the ENOC website. Council of Europe Steering Committee for the Rights of the Child (CDENF) First thematic exchange of views

The Council of Europe Steering Committee for the Rights of the Child held an online meeting on 26 June 2020 to exchange views on lessons learnt to date from the management of the COVID-19 pandemic in member states and future perspectives to ensure that children are treated as rights holders during the pandemic and beyond.

Koulla Yiasouma, ENOC Chair and Northern Ireland Commissioner for Children and Young People, participated in the event. She presented the outcomes of the ENOC-UNICEF online survey on the impact of the COVID-19 outbreak on the work of Ombudspersons and Commissioners for Children and on children's rights. The first session focused on mapping implications of COVID-19 policy responses for children's rights and priority areas of focus by the CDENF; and the second on mapping effective interventions of COVID-19 responses by the child protection and the justice systems, including with respect to situations of violence and sexual exploitation and abuse. You can find the concept note and agenda [here](#).

This exchange of views followed the first meeting of experts of the Working group on Violence against children, held on 23-24 June 2020. They examined mandatory reporting mechanisms for professionals to signal various forms of violence against children, peer to peer violence and harmful sexual behaviour by children.
